PROFILE

A passionate Frontend Developer dedicated to transforming concepts into seamless, user-friendly web experiences using HTML5, CSS3, Tailwind, JavaScript, React, and Next.js. With a strong background in social media management, audience engagement, and personal assistance, I bring exceptional organizational skills and attention to detail to create intuitive and visually appealing web interfaces.

WORK EXPERIENCE

DevLeon Tech

2024 - PRESENT

Frontend Developer

- Independently delivered a responsive web application based on detailed video briefings, quickly grasping requirements and producing a polished product.
- Built a user-friendly interface using HTML5, CSS3, JavaScript, and React.js.
- Project Highlight: Developed certisfy.netlify.app, a fully responsive web app with a smooth and intuitive user experience.

Nwosu & Co Chambers

2021 - 2024

Personal Assistant & IT Personnel

- Served as a personal assistant to the principal officer, managing schedules, communications, and administrative tasks with exceptional organizational skills.
- Doubled as IT personnel, maintaining and operating the law firm's server, ensuring reliable performance and data management.
